## INPLANTING

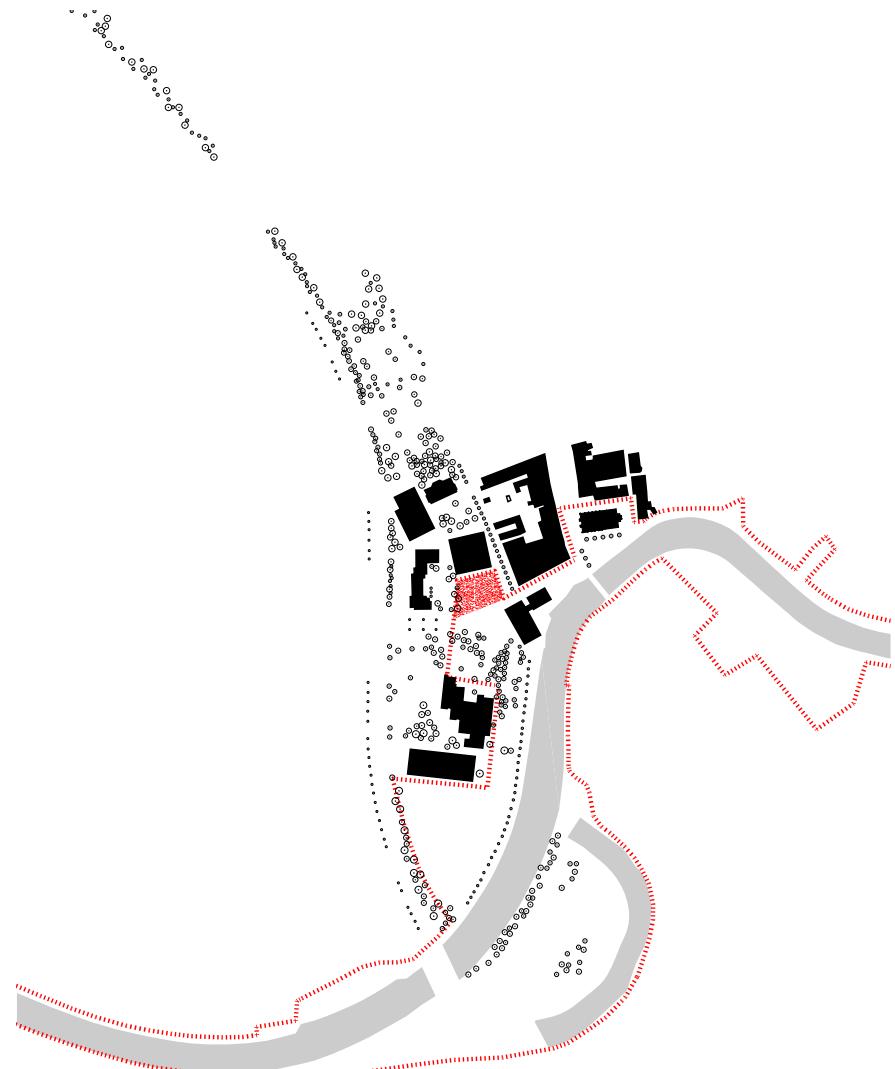

traditioneel weefsel >< meanderpark met losstaande objecten

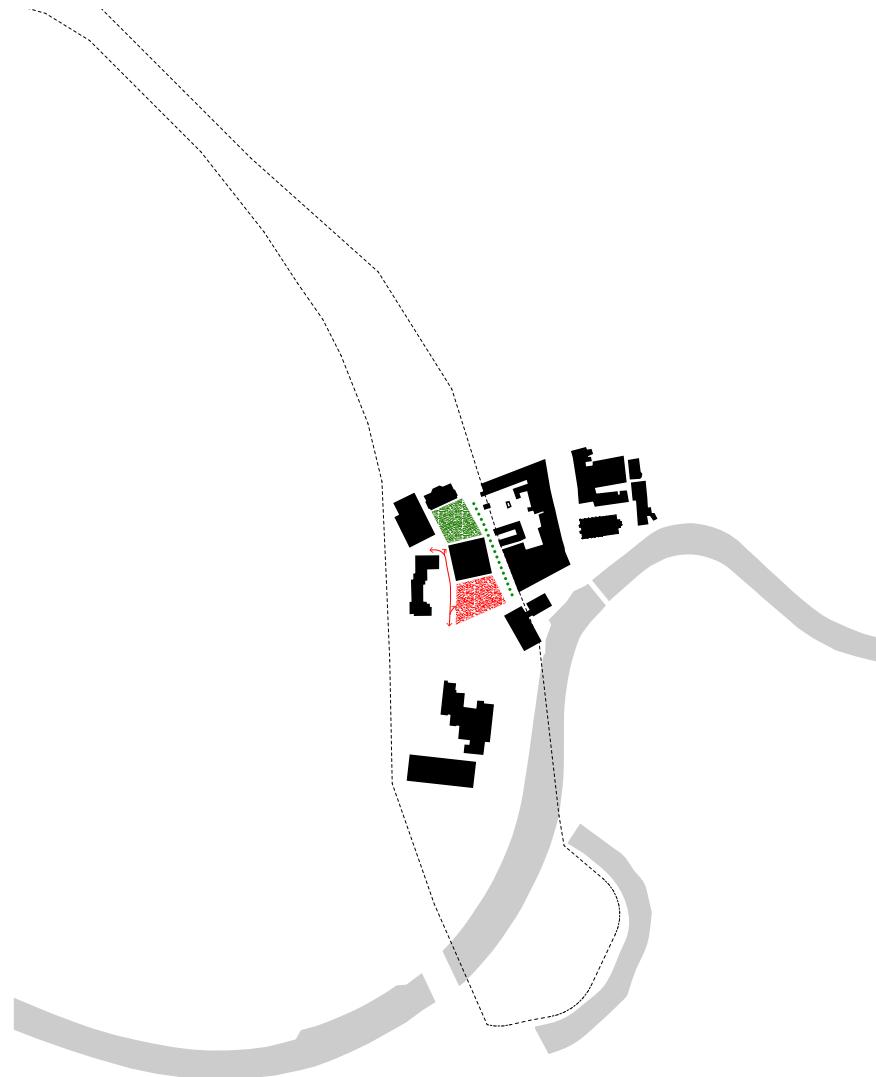

landschappelijke stedelijkheid langs de Leie

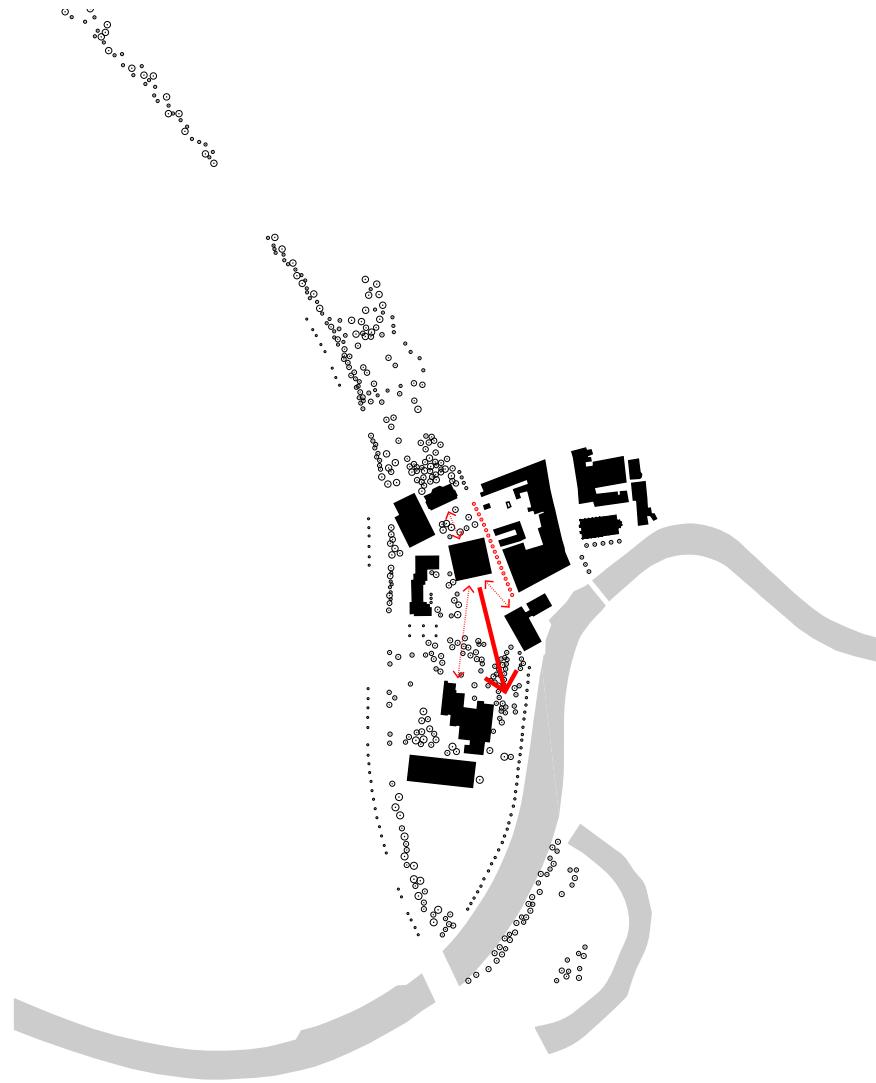

een vrijstaand gebouw in een park

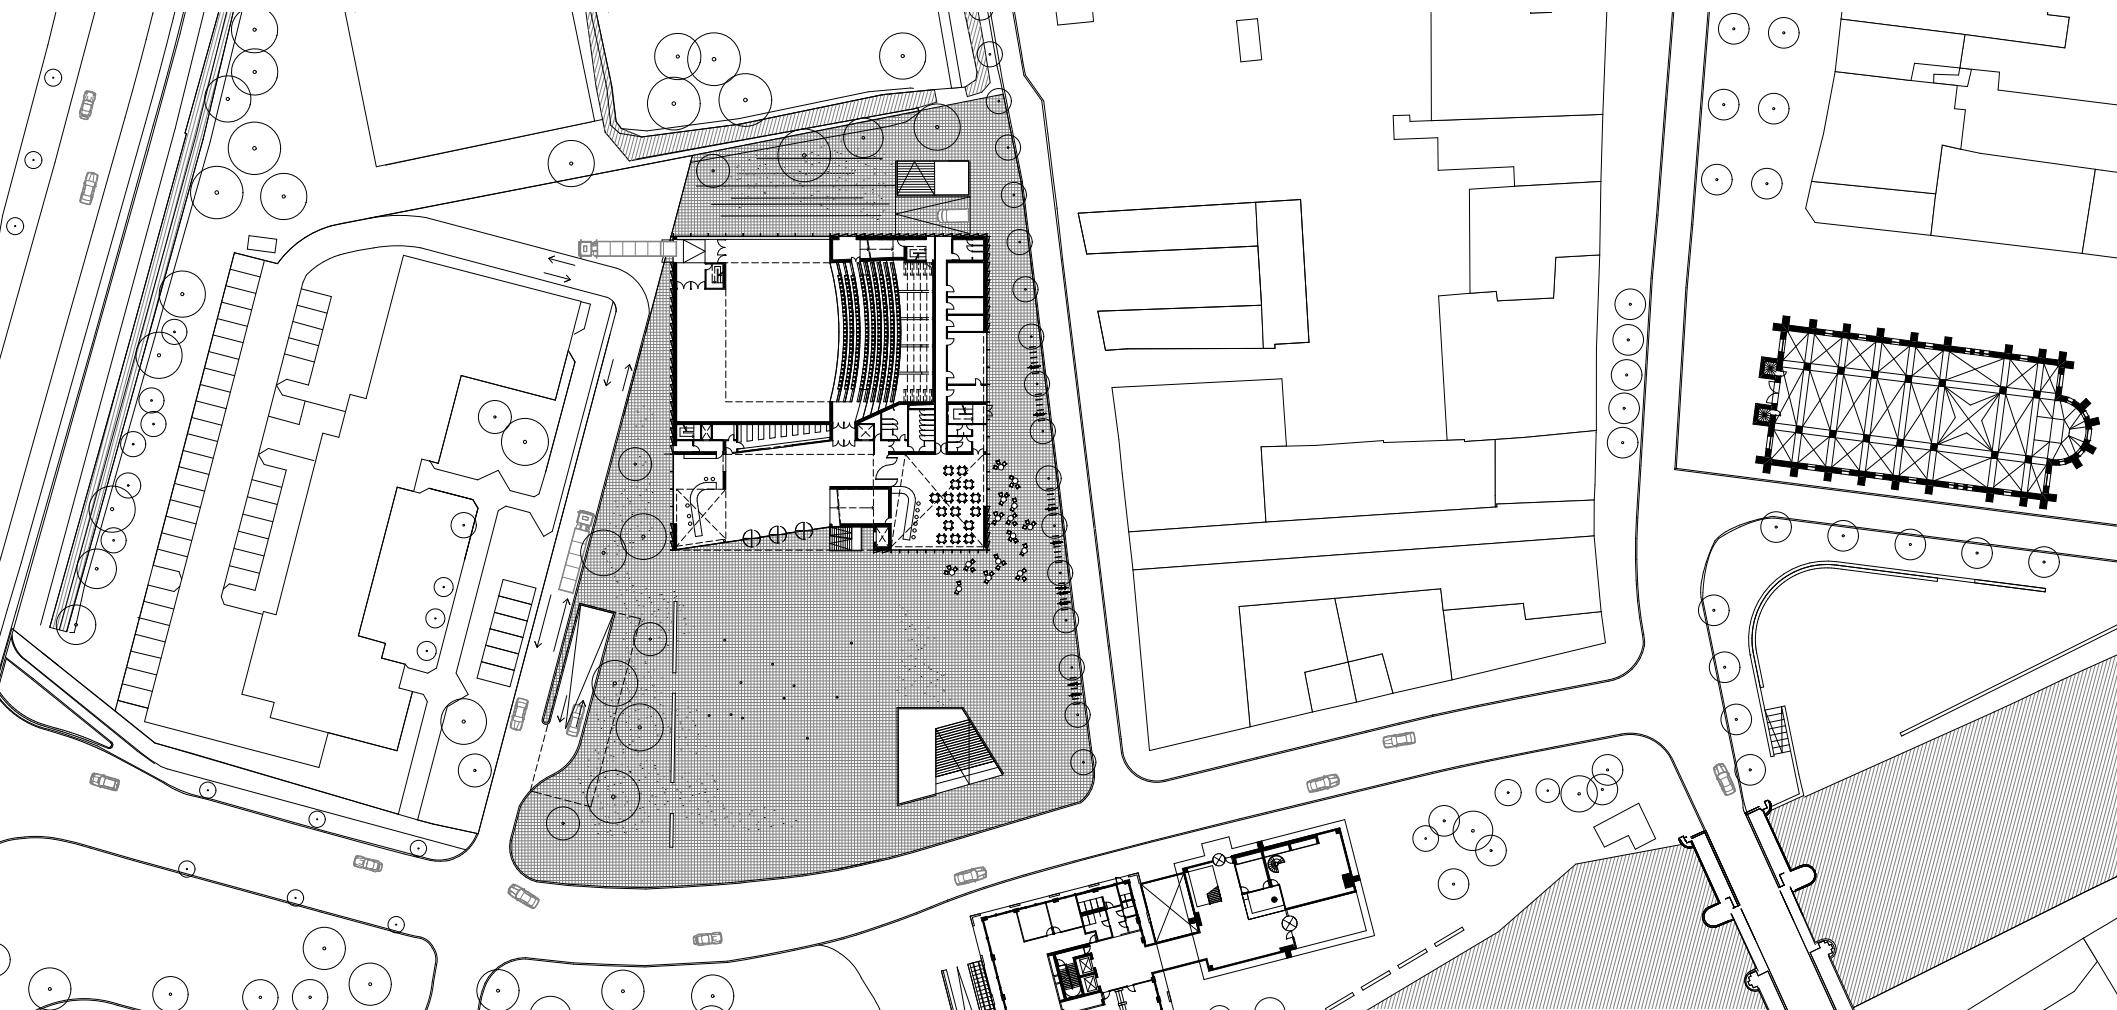

de inplanting zorgt voor een duidelijk leesbaar en bezond voorplein

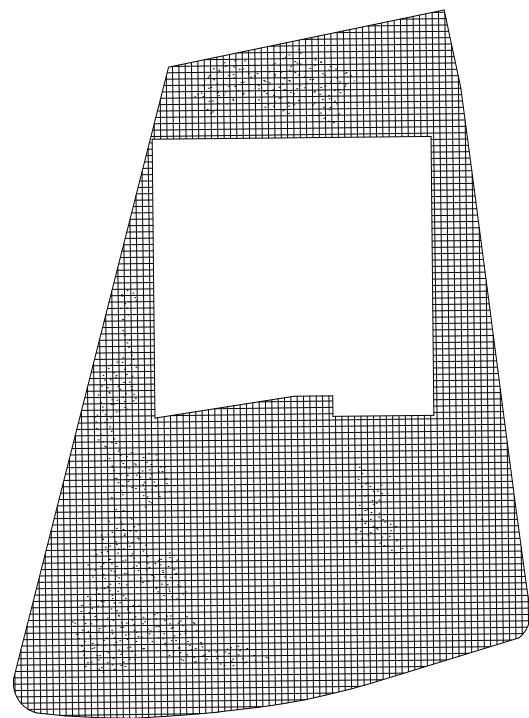

bezond voorplein - straatsfeer langs het café - bufferzone en diensttoegangen - rustige tuin

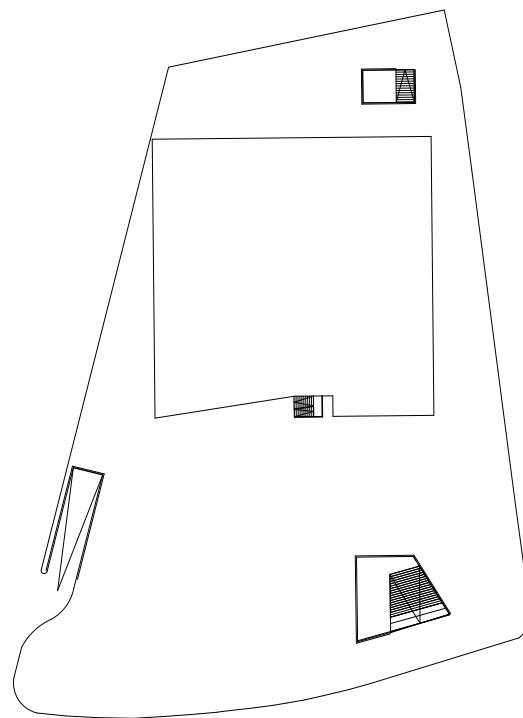

de implanting draagt bij aan de relaties tussen de gebouwen onderling en met de publieke ruimte

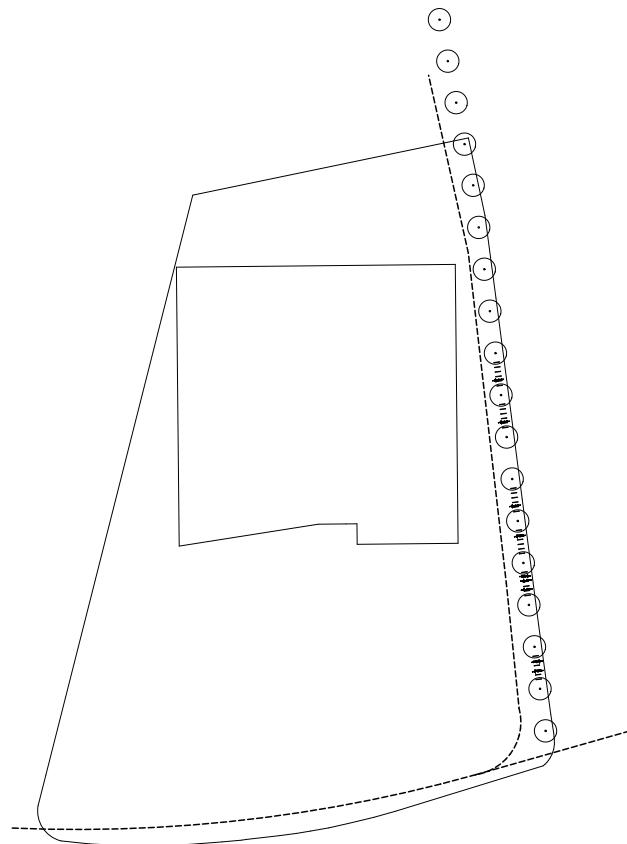

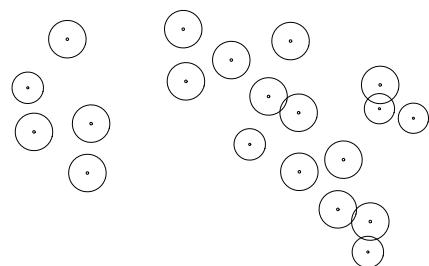

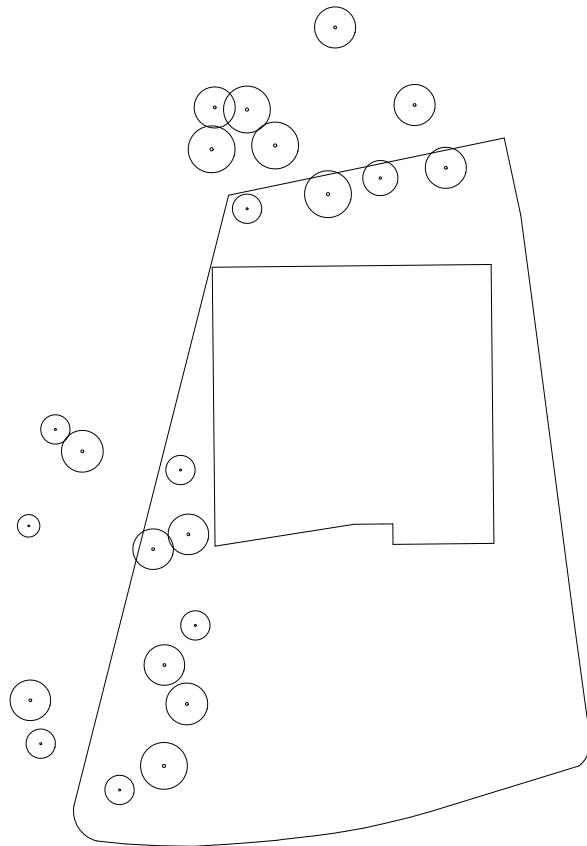

gelaagdheid van de publieke ruimte  
uniforme ondergrond

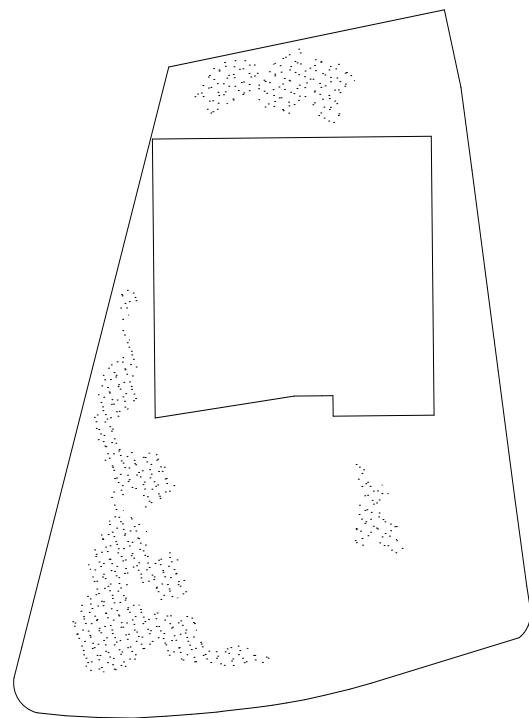

toegangen parking

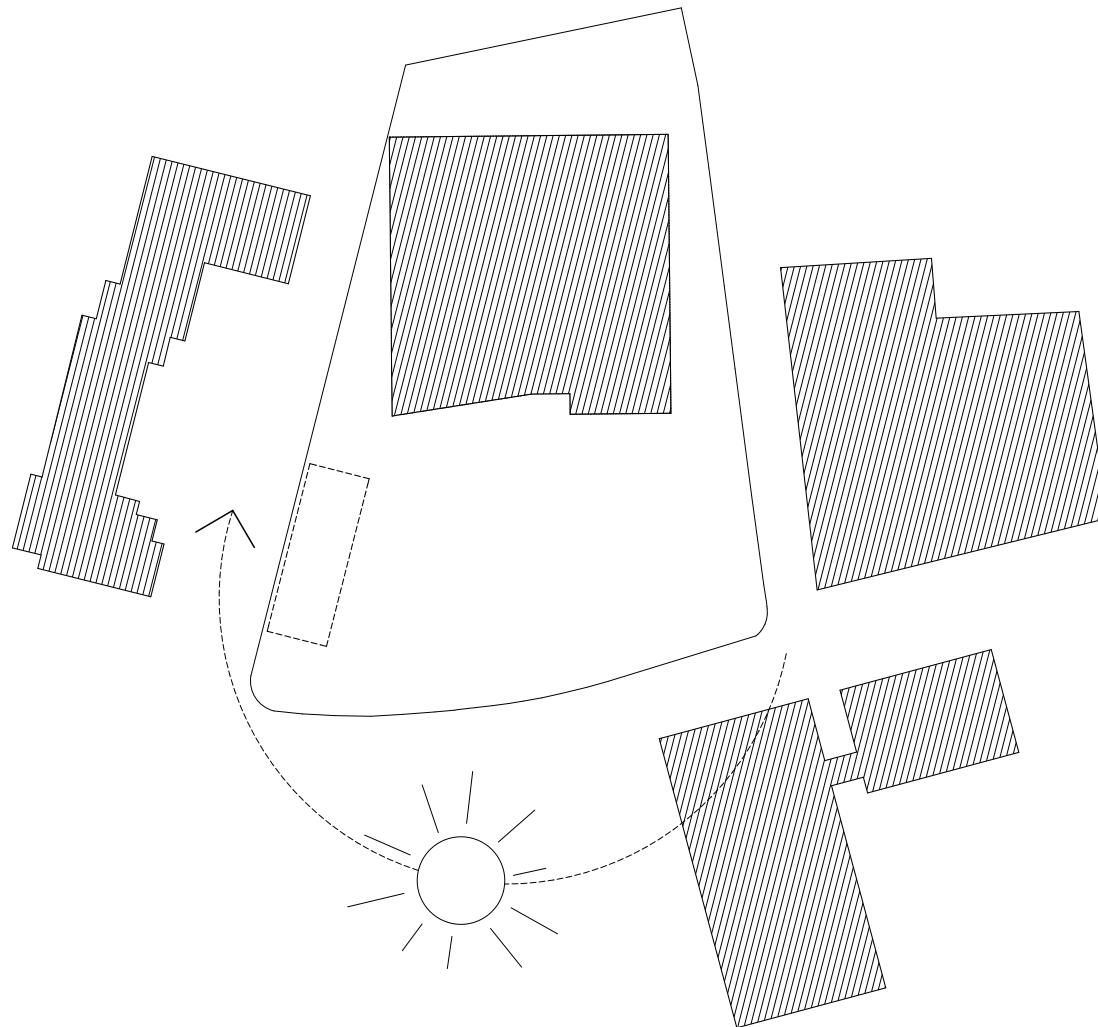

lijnaanplanting : straatbeeld

random implanting bomen:  
continuïteit park

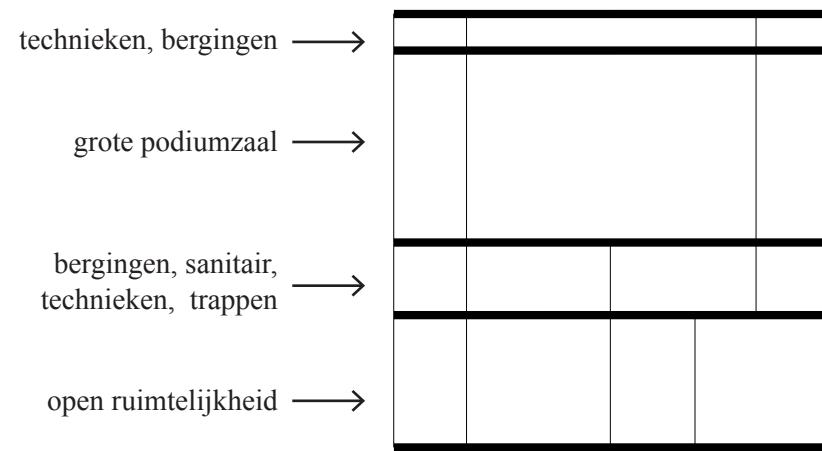

Het plein is één geheel,  
en laat diversiteit toe (groen, water)

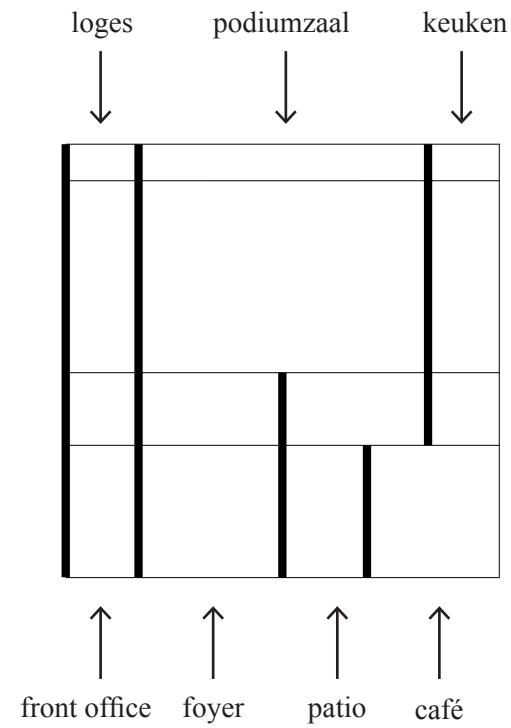

De gebouwen definiëren een bezonde voorplein  
(bibliotheek kan hierop inspelen)
